Email: devendraprasad1984@gmail.com

Summary

- I have **11+** years wide experience in developing software applications and leading a small team of software engineers.
- I have worked on applications built on technologies such as **Python / Flask (REST & JSON) / React / PLSql / HTML5** and **Solution Designing**.
- I handle change management, incident management and Release management.
- I am enthusiastic, **versatile**, ambitious and result oriented with excellent communication skills
- I work on **Agile Sprints** using **KANBAN** sprints and full SDLC life cycles.

Certifications

- **Certified Associate**, Python Institute
- **1Z0-071 Oracle DB SQL (OC1849712)**, Oracle University

Education

- **PGDITM**, SCDL, Symbiosis, Pune, India (2017)
- **B.Tech.** in Information Technology, MDU Rohtak, Haryana, India (2006)

Skills

- **Programming:** Python3.6.7, Flask, PL/Sql, Shell
- **Frontend:** HTML5, jquery/javascript, CSS3, React16.7, Redux4.0, axios0.18.0
- **Databases:** Oracle 11g
- **Cloud:** AWS (S3, polly, lambda, SNS, SQS)

Professional Experience

Oct11-Current	Apr11-Sep11	Nov08-Mar11	Nov07-Mar08
RBS	Syntel	9 Dimensions	DAVIM

Tech Lead, Royal Bank Of Scotland (RBS)

Oct11-Current

Projects Undertaken:

- **Disclosure Reporting Automation**
- **Oracle Analytical Cloud Service**
- **Potter - Short Term Money Market & Deposits**
- **Cash Nostro Management Systems**

Role Summary:

- I am working on application development using **python, react, plsql**
- I have designed solution for Reporting Solution which involves DB design, backend design, data processing using python, **UI** design and helped in finalising architectural strategies around it
- Converted logical data model to physical for **Oracle**
- working on high ledger data volumes in Oracle environment
- Designed data loader strategy using **SqlLoader** and written some complex **Sql** Queries
- Installed, configured and customized Data Visualiser solution from Oracle
- I have strong understanding of the 3 key areas of web application architecture server backend, frontend presentation (HTML, CSS) and interactive web (JavaScript and jQuery)
- I help defining project outcomes, recruit & grow team, handle end-user queries and technical documentation
- I also handle Some adhoc activities which involves Solution Design, reconciliations and dashboarding

Achievements:

- 3 Star of the Month awards
- Rapport with senior management and business stakeholders
- several appreciations from business counterparts

Senior VBA Programmer, Syntel Inc

Apr11 - Sep11

Projects Undertaken:

- Information Publisher macros
- Markdown Optimisation template for requisition management system

Programmer, 9 Dimensions

Nov08 - Mar11

Projects Undertaken:

- PRVit (Performance Risk Valuation Investment Technique)
- CoC calculator(Cost of Capial)
- Dependency Tree

Programmer, DAVIM

Nov07 - Mar08

Projects Undertaken:

- Software development training to MCA students
- Library Management
